

# LIVING ETC

## DESIGN / PROJECT

### ART OF LIVING

When art becomes the deciding factor of the room's decor, pick the neutral hues from the artwork and use those for your furniture. Here, the furniture shades are picked from the branches of the trees, while the console table echoes the aesthetics of the monument.

### PICTURE PERFECT

A profound image needs no words. Ideal for cosy seating arrangements, the picture holds all the attention, while the interesting furniture has been kept in a light shade palette. It is the carpet in vermilion red that offers a welcome contrast and relief to the space.
