**ROYAL COLLECTION**

**Stonex India Private Limited** has recently launched their semi-precious natural stones collection. Each semi-precious slab is truly a work of art, rather than just a surface area. This collection showcases the gem-like splendour of semi-precious stones in bold colours and interesting patterns. These semi-precious stone tiles are a perfect option for a beautiful back-lit set up next to your swimming pool or vanity mirrors or your dining room wall.

## ITALIAN BEAUTY

**Orient Bell Limited** has recently added Book Match tiles to its product portfolio. These premium and classy Italian marble look tiles take on the look of abstract art and create beautiful finished effects with stunning designs, which are often used as floor tiles. Book Match Tiles are categorized under polished glazed vitrified tiles, which are scratch and stain resistant with a consistent design, pattern and structure. Due to their multiple uniform patterns, these tiles also give the impression of a bigger and wider look to spaces. Additionally, with the long lasting quality of Italian marble, these tiles offer limitless design options for creating stylish spaces.

## STURDY AND DURABLE

**VITERO** Tiles from the house of Aparna Enterprises are made from a pure mixture of fine clay and elements like silica, quartz and feldspar, with the state-of-the-art SACMI technology. These double charged tiles are known for their high-resistance to scratch, stains and low-maintenance demand. The brand offers small and large-format vitrified tiles that create the illusion of space. The tiles have high thickness as compared to other normal vitrified tiles. The highly polished finish and latest 'nano seal' technology, gives them the perfect blend of style and functionality making them ideal for both domestic and commercial consumption.
